FOUR STRONG
BRANDS
ONE SINGLE
SOURCE

DAW GROUP - YOUR BUILDING
ENVELOPE SOLUTIONS PROVIDER

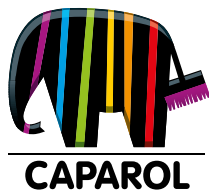

LITHODECOR
Innovative Facade Systems

Your complete building envelope solutions provider

A full range of building envelope solutions for planners, architects, designers and contractors is now available from a single source. The DAW Group has consolidated its Caparol, alsecco, Disbon and Lithodecor brands to provide a complete offering for your next project. This ensures unique products, a wide range of services and full technical and design support across all brands - all with only one contact.

As your complete building envelope solutions provider, DAW Group ensures you find the right products for your next project from our extensive range of external wall insulation, floor coatings, technically advanced paints, ventilated rainscreen cladding and acoustics.

For decades, the striped elephant has been synonymous with reliability, technical expertise and outstanding product performance. Manufactured and distributed worldwide, Caparol is the premium brand of the DAW Group with a vast range of products including high-quality paints, plasters, enamels, glazes, decorative interior wall coatings, acoustic systems and products for architectural heritage and conservation projects.

UNIQUE PRODUCT RANGE

Caparol's versatile range has the right product for every project. All product components are optimised to ensure outstanding performance

CONTINUOUS INNOVATION

Caparol regularly sets new standards from emission-minimised interior paints to revolutionary architectural finishes with nano - quartz technology.

One of the market leaders in the design, manufacture and supply of innovative and creative facades, alsecco combines technical and thermal requirements with inspirational finishes to create individuality for designers and architects.

ENERGY EFFICIENT SYSTEMS

alsecco ETICS range is unrivalled in the sector offering highly thermally efficient systems with a wide range of finishes offering design creativity for architects and designers.

BESPOKE FAÇADE SOLUTIONS

alsecco provides each client an individual and technically-sound solution for each façade project, backed by technical and design expertise

Why choose DAW Group for your next project?

- Experts in building envelope solutions
- Bespoke systems for individual projects
- Versatile ranges ensures design freedom
- Technical and design support from product specialists
- UK specification support with worldwide local production

Disbon has been the leading brand for professional building protection since 1957, providing high-quality products and comprehensive advice to ensure the long-term protection of concrete constructions. The Disbon range offers ideal solutions for floor coatings, concrete repair and industrial coatings.

PROVEN BUILDING PROTECTION SYSTEMS

The perfectly coordinated floor coatings and building protection systems have proven themselves in practice with outstanding success. They guarantee a high level of sustainability for components and buildings.

CONTINUOUS SUPPORT IN BUILDING PROTECTION

Disbon offers technical support throughout planning and application.

LITHODECOR Innovative Facade Systems

Lithodecor specialises in ventilated rainscreen cladding systems. The system is designed to be light in weight and is finished with either natural stone or glass. This innovative technology is carefully manufactured to exacting detail with all panels being produced on a bespoke basis and to the highest specification.

FAÇADE DESIGN FREEDOM

Lithodecor facade systems offer unrivaled finishes and design options - from custom-printed glass surfaces to photovoltaic modules. The lightweight and large format panels ensure maximum design creativity for planners and architects.

BESPOKE PRODUCTION

The high-quality composite materials are manufactured on a project-specific basis through ultra-modern manufacturing techniques, ensuring flexibility of design for clients.
